MONTHLY TRUCK TONNAGE REPORT

FOR IMMEDIATE RELEASE FROM STATISTICAL ANALYSIS DEPARTMENT
AMERICAN TRUCKING ASSOCIATIONS, INC. 2200 MILL ROAD ALEXANDRIA, VA 22314 (703) 838-1791

TONNAGE INDEX DECREASES IN APRIL

General freight carrier tonnage decreased 2.4 points in April, 1985, from March, 1985 according to the ATA Truck Tonnage Index. At a level of 137.3(p) with 1967 = 100, the April tonnage is 1.7 percent below March's 139.7(r). The current month's volume is 8.7 points (6 percent) below the tonnage level in April, 1984.

The actual tons reported by motor carriers in the ATA survey decreased from 5.91 million tons in March to 5.62 million tons in April, 1985. Actual tons decreased 5%. Adjustments for variations due to seasonality and the number of working (trading) days decreased the April index level to 137.3(p).

From March to April, 1985, Industrial Production decreased 0.2% compared to the adjusted general freight tonnage index decrease of 1.7%.

Note: Last paragraph of the March Monthly Truck Tonnage Report should read: Cumulative tonnage for the first three months of 1985 decreased 5.2 percent compared to the same period of 1984.

These findings were announced today by the American Trucking Associations, Inc. (ATA) Statistical Analysis Department. The monthly truck tonnage index is based on a survey of the companywide operations of Class I and II motor carriers of general freight. Index coverage represents in excess of one-half of the tonnage moved by this type of for-hire motor carriers of property subject to Interstate Commerce Commission regulation.

Month-to-month data are compiled using a chain link which, in turn, has been adjusted to remove the normal seasonal influence and variations due to differing numbers of business (trading) days each month.

The current and historic index numbers are shown on the reverse side, along with several other major business indicator series. A "three-month moving average" adjusted truck tonnage index has also been compiled which aids in smoothing out short term non-significant movements in the series.
